30 mins	Discussion on structure of consultation meeting in Riga	Lionel to lead	<p>Divide the session into three sections:</p> <ul style="list-style-type: none"> <li>• Session1: the current situation and why it is so complex. Trust doesn't just happen. What are the issues and why is it important that we need feedback. Phase 1 results - are this correct? Timeline for procurement limitations. Address the cost issue. (big group - presentation) 45 minutes. <ul style="list-style-type: none"> <li>• Small amount of big group discussion.</li> </ul> </li> <li>• Session2: what is the scope of the services that people want and how they want it. (breakouts) 45minutes (break) <ul style="list-style-type: none"> <li>• What value do you see in current TF-CSIRT structure?</li> <li>• Does TI provide value for money?</li> <li>• What services do you use / don't use?</li> <li>• How well does the community work?</li> </ul> </li> <li>• Session3: blue-skies future for TI. (breakouts) 45 minutes <ul style="list-style-type: none"> <li>• What added value would you want to see in the future? What kind of impact are we having on community?</li> <li>• What type of organisation do you want TF-CSIRT to be?</li> <li>• What is the future vision for TF-CSIRT? What happens in a world without TF-CSIRT?</li> <li>• What is the position of our stakeholders? Who are the main beneficiaries?</li> </ul> </li> </ul> <p>Members discussed whether we want to have a report back from each session?</p> <p>We need to capture the differences between the organisation that facilitates the meeting. The trust model that comes out of the meeting. Larger structure around that.</p> <p>Difficult to start from a list of services and ask whether it is in or out. Should not do this - avoid discussing whether we can get the service for x cheaper, and avoid doing micro-specifications of services. Day should focus on is this the direction you want to go as a community.</p> <p>Do we need to do a comparison of what would happen if we moved the structure within one year? Must include strong message on why we have to follow a specific legal process.</p> <p>Do we want the groups to look at different questions? We could hand out pieces of card and ask people to write questions down and then collect them back in.</p>
5mins	AOB		No AOB was raised.
